

Shezan Fayaz

Full-Stack Developer | BCA Graduate

shezanf07@gmail.com | 8899300223 | India | github.com/ShezanFayaz07 | linkedin.com/in/shezan-fayaz-6a2982310/

Full-stack developer with hands-on experience in the MERN and PERN stacks, Python, and AI integrations. Proven ability to build and deliver real-world web applications through internships and freelance work. Committed to writing clean, efficient code and continuously expanding technical skills in web development, automation, and AI.

WORK EXPERIENCE

Web Developer Intern

Uptooskills · 2026, 3 Months

- Developed an HRMS Portal — a full human resource management system with leave, attendance, and employee modules using the PERN stack.
- Built a Day Care Platform — a full-featured service booking and management system for day care providers.
- Worked on both frontend and backend using PostgreSQL, Express.js, React, and Node.js on real-world client projects.

AI & Python Intern

Emily Labs AI Academy · 3 Months

- Developed a Hangman Single-Player CLI Game from scratch using Python with clean, maintainable code.
- Applied programming fundamentals, logic building, and debugging in a professional development setting.
- Gained hands-on experience in Python project implementation, code structuring, and software development best practices.

Freelance Web Developer

Self-Employed · 2025 – 2026

- Built a static business website for a local client focused on responsive layout and clean UI.
- Developed a production-ready taxi service landing page using Next.js for a client project.
